"SEND IT IN"

If you have a bit of news,
Send it in;

Bee Hive Trip Cut Short

The Taylor Stake Bee Hive Girls and their Leaders enjoyed a very short camping trip at Park Lake last week; the week long outing planned being cut down to one day due to the rain. However in that day they had a lot of fun swimming, making nylon flowers and putting on a program around the campfire.

Atha Peterson was in charge of the Camp, Zettella Taylor, Camp Mother, Laverna Salmon and Edna Harker were in charge of the Hobbies, Jolayne Hill in charge of games and Life Guard and Phoebe Dahl was responsible for the Campfire Program.

Misses Agnes Petrak and Hilda Buchnell returned over the week-end from a very pleasant motoring holiday across the line. Much of their time was spent at Couer de Alene.

A college thesis was responsible for obtainable at that time. Mr. Crump a long delayed meeting in Montreal turned to the report of Dr. George recently between the Russian scientist who designed and built the world's first diesel-electric locomotive (shown above) and the vice-president of the Canadian Pacific Railway. The story began when N. R. Crump (right), now vice-president of the C. P. R., was studying for his Bachelor of Science degree at Purdue University, Lafayette, Ind., and was renewed in 1926 while Mr. Crump was locomotive foreman at Moose Jaw, Sask., and was working on his thesis for his Mechanical Engineer's degree. His subject, 'Internal Combustion Engines in the Railroad Field', was one that required a study of facts that were almost un-

Bob Dahl Gets The Most Hits

Quite a sharp-shooter is he! As the press release from the RCAF states—'Home Town Boy Establishes Record' Bob graduated as a pilot with a commendable record and has now gone on to win fame as a marksman. He has completed his air-to-air firing course which consists of firing from his aircraft at a target being towed by another plane. These attacks are made at various angles so good sighting and accurate flying are essential.

Bob has been at the RCAF station at McDonald, Manitoba since receiving his wings on March 7th and his next step will be jet training and then on to a squadron.

Congratulations Bob!

Mrs. Grace Doxey and Mrs. Lottie Ray of Los Angeles are visiting at the John Allen home this week.

Ask Permission

When people use something that belongs to someone else it is a good idea to ask for permission to borrow it. No-one would want to borrow Alkali Lake but a lot of people like to have the use of it and if those people continue in the present trend they will learn, to their sorrow, that the Lake has been placed "Out Of Bounds".

Damage to crops, gates left down, garbage on the shore and general disregard for private property have prompted the owner, Rube Snow, to give notice that anyone desiring to use the lake get permission from him FIRST.

It will be a shame if the actions of a few make it impossible for many to enjoy the picnics and boating for which this spot has such a reputation.

Mr. and Mrs. Art Atwood had as their guests Sunday evening Mr. and Mrs. D. T. Nelson and Mr. and Mrs. R. G. Atwood of Magrath.

August Bride-Elect Feted At Shower

Miss Shirley Allen, August bride-elect, was honored at a Silver and Linen Shower at the home of Mrs. C. R. Wing Wednesday evening. The hostess was assisted by her daughters Mrs. Margaret Taylor and Barbara Wing as well as Joan Brandley, Mrs. Katherine Keeler and Mrs. Margaret Bridge.

Mrs. Norma Wood received the guests at the door; Mrs. Etta Brandley presided at the Guest Book and Mrs. Kate Card ushered the guests to the Dining Room where a dainty lunch was served.

A short program was enjoyed during the evening consisting of a duet by Mrs. Marguerite Anderson and Mrs. Velma Bigelow who sang 'Forever and Ever'; poems by Mrs. Brandley and a Personal Tribute to Shirley by Mrs. Emma Redd. Mrs. Bigelow sang 'I Love You Truly'.

Shirley was given a start on her Recipe Book by the contribution of Favorite Recipes from many of the guests.

Mrs. Grace Doxey of Los Angeles was present for her niece's Shower. Shirley plans to be married in Salt Lake on August 26th to Homer Jensen of that city. After a honeymoon at Bryce Canyon they will make their home in Washington D. C. where Mr. Jensen will study Law.

Chips From The Scout Log

First Raymond Troop

Previous Activities.

The local troop was active during the Dominion Day celebration. The Scouts assisted the police in clearing Main Street of traffic and controlled traffic during and after the parade. The boys did a fine job and are to be commended for their efficiency.

The big job of the holiday was at the Stampede Grounds. Some of the boys sold programs, some were supposed to but couldn't break away from the stampede to carry out their selling responsibilities. The leaders and a couple of the older boys handled the traffic problem. This responsibility was dispatched with great efficiency. There were very few people who wouldn't co-operate with us but we were generally pleased in this respect. The Scouts were glad to take these jobs and learn to give their time in public service.

Trophy Competitions

The Fox Patrol led by Gordon Tycheu surged to the front to win the coveted Patrol Trophy which is a silver scout with staff in hand standing upon a black base. This time the Fox Patrol had to come from the bottom and they won by a very few points. Good work boys! We meet for the big trophy-winner's feed this Friday night.

Dirt Movers Have Successful Barbeque

The weather threw the original plans of the Dirt Movers Barbeque into a cocked hat but along came Wednesday and beautiful weather so the big affair was staged. The beef was cooked out at Victoria Park with Blaine Norton from Magrath as chef.

As the crowd partook of the barbequed beef sandwiches and pop they had the opportunity of seeing a baseball game with the YBA team winning over the Raymond All-Stars with a score of 13 to 8.

The festivities were carried on into the night when a large crowd gathered at Graham's Barn to dance to the music of Jack Patey and his orchestra. It is said to be one of the best dances held there this year. More barbequed beef and pop added to the occasion.

All in all the boys from the office down the street staged a very enjoyable event for the people of Raymond and district. At the time of writing there was no official word as to its financial success.

Mrs. Fanny Litchfield spent three days of last week in Cardston and Raley where she was the guest of her nieces. She was joined one day by her sister, Mrs. Mercer from Barnwell. She reports having had a very enjoyable time.

Thursday night the Second Ward Scouts had a pie and ice cream bust over at the Fairgrounds.

After the pie and ice cream the boys played British Bulldog and Wood Tag. Later some of the boys went to the show and the others stayed to play. A good time was had by all.

HEARD AT THE ELECTION?

A politician is a person who keeps the people loyal to him by keeping them angry at someone else.

No politician is ever as bad as he is painted by his enemies, or as good as he is whitewashed by his friends.

A statesman thinks he belongs to the nation, but a politician thinks the nation belongs to him.

The politician who keeps his ear to the ground may limit his vision.

A cynic has defined a politician as a man who keeps his ear to the ground and his hand in the taxpayer's pocket.

At election time political candidates are more candid than candid.

Governments trim their expenditure when there is nothing else left to trim.

It is a good thing that Moses didn't have to submit the Ten Commandments to a council of foreign ministers for approval.

There may be a closer relationship between the unread and the Red than we think.

What the world needs is a diplomat who can satisfy the Communist without giving them what they want.

Prizefighting rules now prevail in many European nations. When one side leads with the Right, the other counters with the left.

Wars may come and wars may go, but a politician never forgets the new sources of revenue that are discovered.

Rural
Electrification
Is NOT adding
To Your Taxes

When it is suggested that the Alberta Government electrify all farms - free - don't forget the government will have to increase everybody's taxes to pay for it. Don't forget - everybody's taxes - farmers and others as well.

Under the present Rural Electrification Co-operative Association plan, ONLY the farmers who GET farm electrification pay for it - and they own their own lines.

Under the Rural Electrification Co-operative Association plan, operating in Alberta, the farmers are helping themselves to Farm Electrification. They are doing it at less cost than could be done in any other way - and doing it without raising their own taxes or yours either.

Summer Camp

Ten boys and three leaders left for the BB Flats on the Belly River on July 3rd and returned on the 11th. They were organized into two patrols and worked their meals and activities out on a self-supporting basis. Jim McMahon was the quartermaster, he did such a good job that all the boys must have gained weight. Several hikes and overnight trips were taken, to Lake Elizabeth, Deer Lake, North Fork Falls and such interesting places. The highlight of camp was the bridge building we did across the North Fork of the Belly River. The job called for a 30 ft. bridge and was no easy task.

We built a rock and log buttress and laid timbers across it, then put the floor on the bridge. The boys showed great initiative and efficiency in their work. They also built altar fires and tables with fixed benches. These structures were left standing for the convenience of those who may camp there at a later date. On Parents Day the boys had to clear brush, trees, rocks and fill up holes so the parents who came up could get into the flats. This was work! Some of the boys went home early but the majority stayed all the time. Those attending were: Jim Hudson, Jim McMahon, Holgar Tyehsen, Angelo Viola, Gordon Tyehsen, Sam Longbotham, Rodney Kiddle, Max Holt, Arthur Hudson, Leroy Viola, Ronald Longbotham, Jim Walker, Stanley Greep.

Because the river was too low we had to abandon the raft trip downstream. We are looking forward to another camp. Next year we hope to get to the Gap.

Future Activities

We plan to go on a few more hikes and to earn more badges. Several boys have only a few tests to finish and they will have their Queen's Scout Rank.

On September 16th, eight boys will be discharged from the Scouting Circle and will go on to the Explorer movement. A brief but impressive ceremony will accompany this discharge.

For around-the-house activities, it's your best buy because the higher the denier the stronger the yarn.

And here are some more hints on hosiery: The term "gauge" indicates fineness of stitch. A stocking with a high gauge like 66 has smaller stitches and so gives better snag-resistance than one with a lower gauge like 42. Denier — the weight and thickness of the thread — is the guide for sheerness and the most important factor in wear.

If you are wearing nylon stockings that are too short, your feet may burn. Sitting, bending or reaching may become uncomfortable movements. If you have these discomforts consult a foot-size chart available at most hosiery counters. On the other hand, if your stockings are too long they will snag more easily because of the looseness of the fit.

One way to avoid unnecessary runs is to roll the stocking down to the toe before slipping it on. Then straighten the foot seam, unroll the stocking slowly and smoothen it over the leg.
